

BUILDING MATERIALS EXCHANGE BOARD

Do you have
extra green building materials?

The Green Building Center is now hosting
a green building materials exchange board!

Here's how to participate:

- Get an entry sheet from The Green Building Center staff.
- Fill out sheet and get signed by a staff member.
- The Green Building Center will post it on our Exchange Board.
- Sit back and wait to be contacted by people interested in your supplies.

***PLEASE NOTE:** The Green Building Center will not store any building materials. To see actual product, please contact the party who has posted the item(s) you are interested in.*

This Board is meant as a service to our customers and a sustainable approach to leftover building materials, therefore The Green Building Center is not responsible for any goods transferred from one party to another.

We believe that using extra materials is preferable to disposing of them, and is consistent with our efforts to enhance sustainability in the building industry.

Please do your part by being courteous and prompt in your communications with others.
